7. INFORMATION ABOUT THE TRUST'S POLICIES FOR THE IDENTIFICATION, ASSESSMENT AND PROVISION FOR ALL STUDENTS WITH SEND

7.1. Identification and assessment of students' needs

- 7.1.1. The Trust has a responsibility for the identification and assessment of students' needs in line with the guidance outlined in SEND Code of Practice, 2015. Teachers are responsible and accountable for the development and progress of the students in their classes, and we have systems in place to ensure that special educational needs are identified as early as possible. We start by:
 - Providing teaching that is of a high quality

- Regularly assessing our students' progress and targeting areas of difficulty
- Adjusting work for students who need this.

As necessary, we also regularly review the quality of teaching for all students including those at risk of under-achievement. If a student continues to struggle with the curriculum despite the above support, we will consider whether they have a special educational need. To do this we will utilise specific assessment tools that allow us to explore in a more targeted way whether a child has a specific learning need. If it is decided that a student has SEND and requires special educational provision (provision that is additional to and different from that which is available to other students at the School) they will be added to the SEND register under the category of SEND Support. Parents will always be informed when this happens. The provision given at SEND support will be individual to each child. We involve parents/carers in decisions about the support to be provided for their child by inviting them to discuss and contribute to the development of the provision provided. Termly provision map meetings will be held to set and review SEND specific targets. Additional meetings with the SENDCo may be held as appropriate. The School will support most students with SEND at SEND Support. However, some students with more severe, complex and long-term SEND may need an Education, Health & Care (EHC) Plan, especially if they have not made progress at SEND Support. If we feel this is the case, we will discuss this with parents. Parents can also contact the SENDCo if they feel their child might need an EHC Plan. EHC Plans are issued by the Local Authority following an education, health and care (EHC) needs assessment.

- 7.1.2. The identification and assessment of SEND students will usually have been completed by the school from which they are transferring and the transition and assessment process will be managed based on the initial information available.
- 7.1.3. Any subsequent provision which may be required will be in consultation between the Trust establishment, the student and their parents/carers and any external agencies, where appropriate.

7.1.4 **Coming off the SEND Register**

A pupil will be removed from the SEND register, in consultation with parents/carers if it is decided that they have made sufficient progress and are able to access the curriculum successfully. However, they will continue to be monitored in case any issues arise. Some pupils may dip in and out of SEND Support and parents will be consulted at each stage. Following the Review of an EHC Plan, the Local Authority will decide whether to keep the EHC Plan as it is, amend it or cease it, based on the recommendation of the Review meeting. If it is decided to cease an EHC Plan because the pupil no longer requires the special education provision within it, we will continue to monitor the pupil's progress using the school's tracking systems.

7.2. Inclusion of students with SEND

- 7.2.1. It is the responsibility of the class teacher to include students with SEND within the classroom and to carry out planning, manage support and provide resources to enable them to access a broad and balanced curriculum.
